CIVIL

SHAPING TOMORROW.

DELTA GROUP®

SERVICES

Delta Group has the capacity to deliver end-to-end civil contracting services to support building and infrastructure works across urban and industrial landscapes anywhere in Australia.

+ Excavation

Bulk and detailed earthworks, including site clearing, bulk cut to fill, lay-down area preparation, rock excavation and mobile contract crushing and screening, batters and benches, as well as set-downs, pad and strip footings, and pile caps.

+ Retention

Design and certification of temporary and permanent retaining structures, including piled, shotcrete, in-situ, and earth reinforced retaining structures - anchored, cantilevered and gravity walls. Temporary and permanent ground anchors, soil nails and rock bolts.

+ Piling

Cost effective project specific solutions involving bored, driven, sheet and CFA piling methods.

+ Foundations

Construction of building and complex structure pad, raft or pile cap foundations, including ground slabs in small, large and complex structures.

+ Landscaping

High end specification for hard and soft landscaping design and construction, including architectural pavements, features and retaining walls, cultivation, topsoil, hydro-seeding and turf installation, planting, irrigation, drainage, water features, fencing, steel and timber structures, boardwalks, furniture and playgrounds, ovals and sport-courts, and lighting.

+ Remediation & Rehabilitation

Full site remediation and rehabilitation, including excavation and removal, containment and compaction, bioremediation and landfarming, in-situ stabilisation, screening and abatement, chemical treatment and stabilisation, capping, trenching and cover barriers, revegetation, backfilling, contouring, drainage, and membrane vapour barrier installation.

+ Ground Improvement

Ground and soil mass engineering techniques, including ground stabilisation, soil mixing and pressure grouting, rock wedge stabilisation, platforms and hardstands, and dewatering.

+ Site Infrastructure

Excavation and installation of all underground site infrastructure, including stormwater and sewer, hydraulics, fire mains, potable water, communications and electrical (VEDN accredited). Civil pavements and above-ground infrastructure, including roads and carparks, kerbs, line marking, bollards and signage, as well as the excavation and construction of drains, swales, detention ponds, dam wall lifts and wetlands.

+ Marine Environments

Construction of sea wall and revetment structures, foreshore remediation, coffer dams, barge and pontoon works. Pier refurbishment, including specialist co-ordination for the supply and installation of pier and marina structures. Environmental management services, including contaminated sediment and containment systems.

+ Plant & Equipment

Delta Group operates the largest fleet of specialised plant and equipment in Australia. It is purpose-built for civil construction projects and regularly upgraded to ensure we capitalise on late model machinery and the efficiencies they bring to a civil works programme. The fleet is meticulously maintained and our transport logistical systems allow us to manage plant and equipment movements across hundreds of projects at any one time.

We have an in-house fabrication workshop to custom design precision attachments and our capacity to deploy capital expenditure for new plant and equipment gives us the flexibility to meet any client or project requirement.

+ People

We refuse to accept anything but the very best we can give to a client and their project. We are fiercely proud of our success but we won't rest on our laurels. Nor will we get ahead of ourselves because our willingness to learn and improve is our trademark. It's why we've forged a reputation as a pioneer and trusted standard bearer of unparalleled safety, integrity, teamwork and excellence.
